

## Position: Clean Air Guru (Volunteer)

Smart Air is a social-enterprise dedicated to spreading awareness about air pollution and providing simple, effective clean air tools to fight air pollution. Smart Air's international team operates across Asia, with its main offices in Beijing and Delhi.

To raise awareness and protect people from the harms of air pollution, Smart Air runs free [Clean Air workshops](#) across Delhi and India. We are looking for passionate individuals who care about the environment and want to make a difference fighting air pollution. If this is you, and you enjoy tackling challenging projects, come and volunteer with Smart Air!

---

### **Responsibilities**

1. Run clean air workshops, teaching people how they can protect themselves from the harms of air pollution.
2. Share Smart Air's information on air pollution through social media.
3. Build networks with like-minded pollution fighting organisations.

### **Requirements**

1. Passion for environmental awareness, public health, and education.
2. Language: English and/or Hindi.
3. Time commitment: 2-3 hours per week.

### **What you'll get**

1. Learn about air pollution and the science behind it.
2. See how an India-based startup is transforming the air we breathe.
3. Take on independent projects and leadership roles.
4. Experience with an international team.
5. Help reduce the social and environmental degradation caused by air pollution.
